Art Unit: 3722

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by EPO '806.

See figures 8, 10, and 13. Note front surfaces 21, 27, and 34, opposed flutes leading to the tool shank, and coupling projections 23, 29, and 35 which are used for a bayonet coupling.

3. Claims 1-12 and 15 are allowed. With regard to claims 1 and 15, it is not believed that the front surface of the tool body and rear surface of the cutting blade make contact when the two parts are connected.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dan Howell whose telephone number is (703) 308-1728.
